## What are the changes to transfers in?

The Federal Government has recently approved changes designed to streamline administration of the CSS.

One of these changes allows you to pay transfer amounts into the CSS. Previously, only amounts that qualified as a *transfer value*, or productivity amounts that became payable upon cessation of employment, could be transferred to the CSS.

## How does this affect your super?

Generally, the new changes allow you to consolidate superannuation amounts from other funds, whether or not they would qualify as a transfer value in the CSS.

Amounts transferred into the CSS will grow with Fund earnings according to which investment option you are in. They do not attract any employer subsidy and will become payable as a lump sum, or transferred to another fund, only when a benefit becomes payable.

## What options do you have?

You may leave the amounts in their respective funds or transfer them to the CSS at any time, except for an amount paid in accordance with the *Superannuation Guarantee (Administration) Act 1992*, which can only be transferred on cessation of the employment to which the payment relates.

## What do you need to do?

To transfer an amount to the CSS you must request the holding superannuation fund to pay it to ARIA. You must also provide notice in writing to ARIA.
